Safest and most surely profitable Stock in the country. In every respect equal to any State or Government Securities, for safety or certain interest, and far more profitable than any Bank, Railroad, or Manufacturing Stocks.

Eighteen per Cent. Cash Investment warranted and guarantied by the Trustees within the first year, in any event, over and above all ordinary losses and expenses.

An advance or premium of Ten per cent. above par is guarantied within the first year by the Trustees under an express provision of the By-Laws to all original subscribers to the stock of this Company who wish to sell through a permanent investment of the first one hundred thousand dollars of accumulating profits of the insured members, (which will surely amount to double that sum within the first year,) in the Reserved Guarantee Stock: in addition to the guarantied interest of Eight per cent, making a sure and certain investment of Eighten per cent, the first year, over and above the subscription price, warranted and guarantied by the mont faithful, intelligent, and responsible Board of Trustees in the country, and under the most safe and permanently secure plan of business ever adopted by any other company, either in the United States or Europe.

No such guarantied interest of Eighteen per cent.

any other company, either in the United States or Europe.

No such guarantied interest of Eighteen per cent. can be obtained under the charter of any other Life Insurance Company of the country; nor can any Bank, Railroad, State or Government Stock of the Union afford so sure a guarantee both for permanent safety of the principal, or such surely accumulating profits and interest, making the Reserved Guarantee Capital of this new company in every respect the safest and most surely profitable investment in the United States.

Gentlemen in Vermont disposed to secure a limited amount of this stock during the present week, at par, (before it is all taken in Massachusetts and New York,) can once more have an opportunity to secure an investment second to no other in the State or Union, on application to the Bank of Montpelier, or the Vermont Bank, in Montpelier, before the 26th instant, or by application per mail to

Ten per cent, to be paid in cash on subscription, the balance of ninety per cent, within ten days, at either of the banks of Vermont, or Montpelier.

An additional class of insured members will be adopted by the Trustees, to be conducted upon the joint-stock principle under which all of the premiums of this new class will revert to the holders of the Reserved Guarantee Stock, whereby the intrinsic value and price of the stock will not only be permanently sustained at ten per cent, above par, but within five years it cannot be purchased for less than twenty to thirty per cent, advance. A peculiar feature in the safety of this stock over every other is, that before the holders of the Reserved Guarantee Fund can ever be made liable for contribution or loss in any way, not only all the cash premiums of five classes of members, but all the deposite premium and interest notes to three and six times the cash payments, which can never amount to less than from three to four hundred thousand dollars annually, must first be consumed or exhausted by prior losses—an event impossible to occur within the scope of any human event whatever. Worcester's Universal and Critical Diethomary of the English Language.

By J. E. Worcester, LL. D.

One volume, 800. shep, 1032 page—Price \$2 50.

The publishers respectfully invite attention to the following eminent testimony to the excellence of this standard dictionary.

The execution of this Dictionary fully answers to its title. The Vocasulary is probably more comprehensive than that of all preceding English Dictionaries united. Constant reference is made to authorities united. Constant reference is made to authorities united. Constant reference is made to authorities with respect to words newly introduced, and care is taken to note such as are technical, foreign, obsolete, provincial, or vulgar. The perintitions are clear and exact, and those pertaining to technical and scientific terms are specially valuable to the general reader. The author has evidently bestowed great labor on pronunciation. His system of Notation, which is easily understood, and founded on a more complete analysis of the vowel sounds than we have elsewhere net with, together with his plan of exhibiting all the best English authorities in relation to words differently pronounced by different orthoepists, gives to this work important advantages as a Pronouncing Dictionary. In ournography he has made no arbitrary changes, but where usage is various and fluctuating, he has aimed to be consistent, and to reduce to the same rules words of similar forms and infections of words to a much greater extent than they are given in other English Dictionaries, and the short critical notes on the orthography, the pronunciation, the grammatical form and construction, and the peculiar, technical, local, and American uses of words interspersed through the volume, give to this work much additional value. The copious Vocabulary of Modern Geographical names, with their pronunciation, and a greatly enlarged and improved edition of Walker's Key to the pronunciation of Classical and Scripture proper manes, are important appendages to the Dictionary.
